# DISCOVER OUR WATER ACTIVITIES IN THE HEART OF THE VAUD JURA

---

Come experience something unique by exploring Lac de Joux, the largest body of water in the Vaud Jura, nestled at an altitude of 1,004 meters within breathtaking mountain landscapes. We offer three unforgettable water activities, blending adventure, team spirit, and a deep connection with nature in a preserved environment.

**RAFTING** on Lac de Joux is perfect for outdoor enthusiasts. During this adventure, you'll rely on coordination and teamwork to navigate the lake's crystal-clear waters. Together, your team will face challenges surrounded by lush forests and majestic mountains. Each outing promises laughter and unforgettable memories in a serene, crowd-free setting.

For a more dynamic group activity, **BIG SUP PADDLE** offers an extraordinary experience. These oversized paddleboards accommodate 8 to 10 people, allowing you to paddle together amidst a stunning natural backdrop. Your guide will foster group cohesion, and with multiple boards available, you can organize friendly competitions or simply enjoy a relaxing paddle in the calm, peaceful Jura atmosphere.

If you prefer a gentler way to explore, **KAYAKING** is perfect for discovering the lake's wild, quiet corners. Accompanied by a guide who loves the region, you can observe Lac de Joux's rich biodiversity, from rare birds to aquatic life, while taking in the surrounding villages and forests that border this unique place.

Lac de Joux is more than just a leisure destination; it's a place where nature reigns supreme. Through our commitment to **Swisstainable**, a Swiss National Tourism program, we ensure our activities respect this fragile environment. By choosing our rafting, Big SUP Paddle, or kayaking, you contribute to sustainable tourism, preserving the beauty and tranquility of Lac de Joux for future generations.
